

# STREATOR ELEMENTARY SCHOOL DISTRICT #44

## Parent Notice of Tier 3 Intervention Services (Additional 45-90 minutes per day)

Date: \_\_\_\_\_

Dear \_\_\_\_\_,  
*Parent or Guardian*

Your child, \_\_\_\_\_, was recently screened along with the rest of his/her class, to determine strengths and weaknesses in different academic areas. Based upon results of this screening and other information such as classroom performance, your child would qualify for intensive interventions up to 90 minutes per day to target key skills important for reading or math.

Small group instruction would focus on skills in reading or math and will be provided in small groups led by school support staff. Your child will remain in the core reading and math instruction taking place in the general education classroom, and will be pulled from another academic subject area or one of their specials. Your child will not be held responsible for the material he or she misses while receiving the small group instruction, and may not receive a grade in this subject area on his or her report card. Your child will still be getting exposure to topics in those areas through our reading curriculum. Each child's performance will be monitored closely so that when the small group instruction is no longer needed, they may be dismissed from the group. You will be kept informed of your child's progress.

If you have any questions, please contact me in the school office.

Sincerely,

Principal
