

# STREATOR ELEMENTARY SCHOOL DISTRICT #44

## Parent Notice for Dismissal of Intervention Services

Date: \_\_\_\_\_

Dear \_\_\_\_\_,  
*Parent or Guardian*

Based upon results of universal screening and class performance information, your child, \_\_\_\_\_, has been receiving small-group instruction. This instruction targets key skills important for reading and/or math. While receiving this small group instruction, your child's progress has been monitored using AIMSweb. A review of your child's progress has shown that he/she has made significant gains in his/her reading and/or math skills. At the last universal screening, your child had met his/her grade level benchmark and was performing as expected for his/her grade level. Therefore, your child no longer needs the small group instruction for reading and/or math skills at this time. However, your child's progress will continue to be monitored through universal screenings to ensure that these skills remain at grade level expectations.

If you have any questions, please contact me in the school office.

Sincerely,

Principal
